

GUIDELINES AND SPECIFICATIONS

FINAL REPORT

INSTRUCTIONS

Each project is concluded with a final report (incl. required attachments). Once your documents have been approved, the debriefing interview can take place. An invoice may subsequently be issued for the outstanding tranche of the project grant.

A final report is not a research report (neither in form nor in content); it is an independent report in line with the grant-making policy of Gebert RUF Stiftung. It should be concise and impact-oriented. A final report may comprise a maximum of four A4 pages plus the required attachments (see Point 7). It can be written in English or German.

Please use the predefined headings and section numbering shown below (without *italics/grey* text parts). The final report should not contain any illustrations or charts.

Send the final report with attachments to jacqueline.grollimund@grstiftung.ch (Project Controlling) or via WeTransfer or a similar file transfer service if necessary. We require the report and web presentation as Word files too.

Following approval of the documents, please contact Jacqueline Grollimund with suggestions of dates for the debriefing interview.

STRUCTURE OF THE FINAL REPORT

The text in italics serves only to provide explanatory comments and is not to be incorporated into your report. Please indicate the creation date and number the pages.

1. FULL PROJECT TITLE AS HEADER

2. FORMAL REQUIREMENTS
 - 2.1. Project number
 - 2.2. Short project title
 - 2.3. First name and last name of project leader
