

ANNUAL REPORT
2022

VENTURE KICK, AND EXECUTING

In 2022, Venture Kick celebrated its 15th anniversary, making it an especially noteworthy year. While a video series showcased 15 global challenges tackled by Venture Kick alumni, a special magazine, titled "15 Years of Kicking Forward Swiss Innovation", was launched at the anniversary event in November. Both the magazine and the annual report illustrate the considerable impact of our initiative.

Since its launch in 2007, Venture Kick has funded 931 startup projects from Swiss Universities with seed capital of over CHF 45 million, which have generated more than CHF 6.7 billion in follow-on financing and created close to 12,000 new jobs. The initial "kick" from Venture Kick was instrumental in the early days of these startups.

Venture Kick's remarkable track record is based on three pillars: "Funding," "Kicking," and "Executing."

FUNDING

Venture Kick would not be possible without donors who have been closing the gap in early-risk financing with substantial contributions since 2007. Venture Kick owes its growth and success to the commitment of the following partners: Gebert Rüf Stiftung, Avina Stiftung, Opo-Stiftung, Ernst Göhner Stiftung, Fondation Pro Techno, Fondation Lombard Odier, Hauser-Stiftung, Rising Tide Foundation, André Höftmann, Hansjörg Wyss, Martin Haefner, Igor Fisch, Climate-KIC, ESA BIC Switzerland, Debiopharm, Engagement Migros, and Swisscom.

KICKING

While the expertise and efficiency of the management team guarantee the smooth operation of the program, the Venture Kick jury is an equally vital factor in the initiative's success. Encompassing 150 members, it is responsible for successfully selecting the startups that will be "kicked" to the next level – transforming scientists into entrepreneurs and innovation into business.

EXECUTING

At the heart of the Venture Kick program, are the startups and their founders, who choose to leave their comfort zone to meet new challenges: if selected, they move from classrooms and research laboratories to a competitive entrepreneurial environment in which they must take decisive steps to build a viable business – with our support.

What makes Venture Kick a success is a shared goal of kicking forward Swiss innovation for the benefit of Switzerland's economy and society.

Dr. Pascale Vonnmont

Dr. Suzanne Avedik

Dr. Ernst Göhner

It is undeniable that geopolitical circumstances and the resulting economic instabilities had a significant impact on the startup ecosystem. Nevertheless, the total amount invested in Swiss startups this year exceeded last year's, and our Kickers continued to impress in 2022: they reached significant milestones, raising funds, creating partnerships, and winning awards to advance the development and deployment of disruptive and urgently-needed innovations.

To read about the investments our Kickers attracted in 2022 in more detail, consult:
www.venturekick.ch/newsroom.

RAISING ROUNDS OF CHF 10+ MILLION

Scandit (USD 150M)

Scandit, the global leader in smart data capture, has completed a Series D funding round of USD 150 million at a company valuation in excess of USD 1 billion. Since its Series C funding round in May 2020, the company has more than doubled its annual recurring revenue and now has over 1700 global customers, including American Eagle Outfitters, Carrefour, FedEx, Levi Strauss & Co., Yamato Transport, and Sephora.

Convincing investors with its proprietary reinforcement technologies, the cleantech and material engineering innovator secured CHF 32 million in a Series B funding round. Venture capital from the automotive, aerospace, mobility, impact, and finance sectors allows the scaling of the Bcomps technologies for the integration of road-homologated cars.

In November, Beekeeper announced the closing of a Series C financing round with USD 22.2 million and announced two high-profile appointments to the board of directors: Dr. Deborah Birx, an American physician and diplomat, and Victoria Wang, a biotech expert at Taiwan Capital. The company's digital live-cell analytical solution is revolutionizing the drug discovery workflow.

Beekeeper (USD 50M)

In November, Beekeeper announced the closing of a Series C financing round with USD 22.2 million and announced two high-profile appointments to the board of directors: Dr. Deborah Birx, an American physician and diplomat, and Victoria Wang, a biotech expert at Taiwan Capital. The company's digital live-cell analytical solution is revolutionizing the drug discovery workflow in sectors like hospitality, nursing, and retail.

MindMaze (USD 105M)

A leader in the digital neurotherapeutics market, MindMaze secured USD 105 million this year, allowing the company to boost its R&D, consolidate its clinical development pipeline, and expand its commercial footprint in the US. MindMaze also announced a partnership with the American Hospital Association and the American Hospital Association-Confédération Health Partners.

HAYA THERAPEUTICS (USD 25M)

HAYA Therapeutics, a pioneer in novel therapies for fibrotic diseases, closed a USD 25 million seed round and established a location laboratory space at JLABS in San Diego, part of Johnson & Johnson Innovation's global network of life science incubators.

Bcomps (CHF 32M)

Convincing investors with its proprietary reinforcement technologies, the cleantech and material engineering innovator secured CHF 32 million in a Series B funding round. Venture capital from the automotive, aerospace, mobility, impact, and finance sectors allows the scaling of the Bcomps technologies for the integration of road-homologated cars.

Ariaris Biotech (USD 24M)

With the development of its proprietary linker technology for antibody-drug conjugates (ADC) Ariaris is addressing an unmet need in medicine and convincing investors: that it secured USD 24 million in a new financing round.

BioVersys (CHF 24.2M)

The pharmaceutical innovator battling antimicrobial resistance (AMR) obtained CHF 24.2 million in an oversubscribed Series financing round. With AMR becoming an increasingly pressing issue in healthcare, the funding allows the company to boost its development of impactful medical solutions.

Daphne Technology (CHF 20.3M)

Innovating neurocognitive assessment technologies for the detection and treatment of diseases like Alzheimer's, Altoida attracted USD 20.3 million in a Series A funding round. The company is investing in accelerating its R&D of its platform, which leverages AI and AR to detect cognitive and functional changes more rapidly than possible with other methods.

Flyability (CHF 15M)

Boosting customers like Carroll and Dow, Flyability raised CHF 15 million in a Series C funding round. The financial injection will go towards developing the sensory and autonomous capabilities of its Elips 3 drone model, which enables the monitoring of production assets and worker safety indoors.

Nanolive (USD 22.2M)

Nanolive closed a Series C funding round with USD 22.2 million and announced two high-profile appointments to the board of directors: Dr. Deborah Birx, an American physician and diplomat, and Victoria Wang, a biotech expert at Taiwan Capital. The company's digital live-cell analytical solution is revolutionizing the drug discovery workflow.

Altoida (USD 20.3M)

Innovating neurocognitive assessment technologies for the detection and treatment of diseases like Alzheimer's, Altoida attracted USD 20.3 million in a Series A funding round. The company is investing in accelerating its R&D of its platform, which leverages AI and AR to detect cognitive and functional changes more rapidly than possible with other methods.

Distalmotion (USD 90M)

After successfully completing the first clinical test cases with its surgical robot Dexter, Distalmotion closed a Series E financing round with USD 90 million. The funds will go towards the global commercialization of the surgical robot as the company is working with European medical institutions and the US FDA to work out guidelines and training protocols for robotic surgery.

RAISING CHF 3 TO CHF 10 MILLION

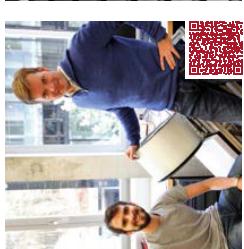

InSight [CHF 4.85M]
Operating at the intersection of cleantech and agritech, InSight plans to scale up the deployment and commercial rollout of its innovative solar installation, InSolaGraf.

SmartHello [USD 5M]
The funds from the Y Combinator and a flurry of Swiss and American investors allow the startup to scale its proprietary IoT sensor and intelligent software to improve the performance and lifespan of solar panels.

AspwiX [USD 5M]
The developer of non-traumatic CT-based medical devices will use this Series A funding to not only boost R&D but also bring their product to market in Europe and the US. This innovation will help the startup bring this innovation to market.

Postirgo [CHF 5.5M]
The startup has developed the NeuroFl system, an ultra-compact and dedicated brain positron emission tomography (PET) system. The funding will help the startup bring this innovation to market.

b-rayZ [CHF 4M]
The startup's revolutionary AI-based platform helps radiologists with the early detection of breast cancer. The Series A funds will be used to tap other European markets and reach FDA approval in the US.

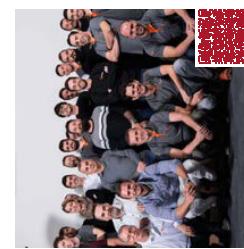

matriq [CHF 4.2M]
matriq got CHF 4.2 million in a late-round. Their proprietary DynamicMold method integrates the marking of individual plastics parts with camera-readable 2D code in various forming processes.

Invisight [CHF 4.5M]
Invisight closed an oversubscribed seed round with CHF 4.5 million. The funding gives a boost to the development of the company's anti-cancer cell invasion drug discovery accelerator, ACINNA.

Inverse [CHF 4.5M]
In this pre-Series A round, the startup convinced investors with its voxel- and holographic content solutions delivering volumetric content as efficiently as zoom.

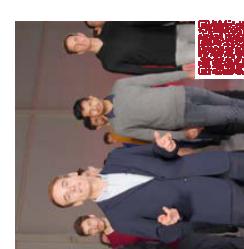

Scrona [USD 9.6M]
Scrona, an additive manufacturing startup and world-record holder of the smallest ever printed color picture, announced the closing of its Series A financing round with USD 9.6 million.

Younergy [CHF 7M]
The startup is accelerating the energy transition by expanding the solar energy for self-consumption. They issued bonds to finance Switzerland's largest decentralized solar power plant project.

hemotune [CHF 7.25M]
The Series B funding round will allow the startup to complete the preclinical development of Hemo-System, a breakthrough blood purification platform based on nanoparticle magnetic beads.

Resistell [CHF 8.5M]
The company will use the funds of its Series B to complete its clinical trials for antibiotic susceptibility testing (AST) and for market entry of its R&D device Phenotech Research.

Lumendo [CHF 3M]
The interventional radiology innovator closed a CHF 3 million seed round to begin commercialization of its patented Cube Navigation System in Europe and secure FDA approval for the US market.

Artria Medical [CHF 3.8M]
Aiming to revolutionizing and simplifying complicated endodontic procedures, the medtech startup raised CHF 3.5 million in an oversubscribed seed round.

Botneuro [CHF 4M]
The startup developing a non-invasive, home-based treatment for Alzheimer's patients, closed the first tranche of the next round, bringing its total capital raised in 2022 to CHF 4 million.

Scalyste [CHF 6M]
Specializing in confined space inspection drones, the company works towards making industrial spaces safer. They will invest in further R&D of its ASIO drone as well as the accompanying software, ScalVision.

Sleepiz [CHF 6.2M]
The Series A financing round will allow the ETH spinoff to launch its sleep spina monitor in foreign markets, after getting FDA approval in the US in July and joining the American Telehealth Association in October.

Zaphiro [CHF 6.4M]
The Series A funding will boost the commercialization and growth of its smart grid IoT software platform SyncroGuard in new geographies and markets.

Koa [USD 10M]
Investors contributed CHF 10 million in a Series A equity round that will allow the Swiss-Ghanian venture to scale its innovative upcycling of the cocoa fruit.

greenTEG [CHF 10M]
The award-winning ETH spinoff develops, manufactures, and markets thermal sensors. The financing secured in a recent round will be invested in R&D and production scaling.

vestr [CHF 10M]
vestr garnered CHF 10 million in an oversubscribed financing round. The funding will be used to grow their platform, which is being used by nearly a thousand professional asset managers.

Neural Concept [USD 9.1M]
Neural Concept, whose proprietary geometric deep-learning tech empowers the use of engineering data, raised USD 9.1 million in a Series A funding round.

RAISING CHF 2 TO 3 MILLION

EXITS

CTsystems acquired by Datwyler

Datwyler, a specialist in system-critical elastomer components, is strengthening its position for the innovative future technology of electroactive polymers. To do so, it has obtained several patents with the acquisition of the Swiss startup CTsystems. The parties have agreed not to disclose the performance-based purchase price.

Versantis acquired by GENFIT

The ETH spinoff was acquired by GENFIT, a late-stage biopharmaceutical company also dedicated to improving the lives of patients with severe chronic liver diseases. GENFIT has entered into an exclusive agreement with view to acquire all the share capital and voting rights.

Depsy acquired by UK Energy Group

Grid-optimization specialist Depsy was acquired by Kraken, which is part of the Octopus Energy Group in the UK. Kraken will integrate Depsy's GridEye technology platform which provides analytics, data, and real-time monitoring, including fault management, power Despequality, and power flow modeling.

Qualysense [USD 2.5M]

The developer of high-speed robotic analytics solutions for seeds, grains, and beans secured USD 2.5 million, allowing it to boost its expansion in the US.

Oxyle [USD 3M]

This pre-seed funding allows Oxyle to bring its solution for the removal of micropollutants from wastewater to market, which could make a significant contribution to the fight against the clean water crisis.

Neurosoft Bioelectronics [USD 3M]

The funds will help the EPFL spin-off to forge ahead in the medical implants niche and boost the development of its SOFT ECOn™ and SOFT TINNIT™ products. On expanding its international distribution network.

Scewo [CHF 3M]

The maker of the stair-climbing electric wheelchair BRO got CHF 3 million from new investors. The mechatronics company can now focus on expanding its international distribution network.

CTsystems acquired by Datwyler

Datwyler, a specialist in system-critical elastomer components, is strengthening its position for the innovative future technology of electroactive polymers. To do so, it has obtained several patents with the acquisition of the Swiss startup CTsystems. The parties have agreed not to disclose the performance-based purchase price.

GEN acquired by Ginkgo Bioworks

Utility company Industrielle Werke Basel (IWB) has announced its investment in the cleantech startup: IWB is taking over 30 percent of the Sympathy shares. The fresh capital will be used in particular to develop the energy planning software further.

routeRank acquired by Neteteera Group

As part of the strategic merger, the two companies will provide IT solutions for multimodal mobility worldwide. Founded in 2006, route-RANK provides multimodal mobility portals as an IT service. Unlike other solutions, they address the entire door-to-door route by integrating all relevant modes of transport and their many multimodal combinations.

Isochronic [CHF 2M]

Isochronic closed CHF 2 million seed round to develop industrial robots for pick-and-place applications. The funds will be used for product development as well as the first industrial installations based on Isochronic's technology.

TYXIT [CHF 2M]

Used in musical performances and gaming, TYXIT's technology was showcased at the Montreux Jazz Festival and the Jazz à Vienne Festival in July. It also picked up traction in the eSports segment.

flowbone [CHF 2.1M]

The EPFL spinoff working on regenerative nanomedicines treatments for bone diseases raised CHF 2.1 in a seed round. flowbone also aims to decrease the incidence of osteoporotic hip fractures.

Adaptive Biosystems [USD 2.5M]

Focusing on high-throughput protein synthesis and screening, the startup is building a next-gen protein engineering platform. This pre-seed round will get the startup one step closer to that goal.

RAISING CHF 2 MILLION AND LESS

INDUSTRY DEALS

Zippseff, which is revolutionizing the locker and storage industry, entered into a partnership with Unorthodox Ventures, which will support the startup with its expansion in the US market.

Exatlon and energy service provider CKW entered into a collaboration after CEO Liliane Aebi and business innovation lead Andreas Uthmann participated in a Scale Up Bootcamp, which was aimed at startups advancing sustainability, circular economy, and cleantech.

Eratac, which developed a drug discovery platform enabling large-scale in vivo drug discovery in zebrafish, announced that it entered into a research partnership with Danish pharmaceutical company Novo Nordisk.

UNDISCLOSED FUNDING ROUNDS

Exatlon secured millions in funding from Silicon Valley and Switzerland to drive renewable energy transition. **Volunma Medical** closed its Series A funding to further develop its lead product Autipearl. **Rigitech** closed an undisclosed seed round to accelerate their drone delivery network deployments. Agritech startup **Aero 41** raised seed funding to realize expansion plans. **Fixposition** providing global high-precision positioning solutions got seed extension round with new investors. Legatech startup **CASUS** raised a pre-seed round to optimize the creation of contracts at scale. BLKB supported St.Gallen FinTech **Kaspar**.

Plastopaz received strategic investment from Dow to simplify plastic waste-to-feedstock process.

A KICKERS' WORLD

THE WEBSERIES THAT INVITES YOU TO THE FOUNDERS' PREMISES

AWARDS & WORLD-RECORDS

Venture Kick alumni regularly contribute to world premieres, winning global awards and making headlines. Here is a short selection.

greenTEG

greenTEG's CORE technology enabled two world-class achievements in one day: cyclist Filippo Ganna set a new UCI Hour Record in Grenchen, while triathlete Gustav Döbel set a new running record at the Ironman World Championship in Kona, Hawaii.

flowbone

flowbone received the Healthy Longevity 2022 QuickFire Challenge from the National Academy of Medicine. In May, researchers from the EFL and ETHZ joined flowbone for a two-year research project funded by Innosuisse with a grant of CHF 1.2 million.

Daphne Technology

Winner in the "Early Stage Startup of the Year" at the Swiss FinTech Award, the company received CHF 48,000. Deep Judge offers a next-generation AI-powered context-sensitive legal document-processing platform for law firms, courts and legal departments.

Composite Recycling

Composite Recycling is the winner of the MassChallenge Switzerland Award held in Lausanne and giving visibility to startups also in the US. Composite Recycling cashing the CHF 100K Diamond Award Big Phzne.

Aspirix

Aspirix won the IF DESIGN AWARD 2022 in the Category Medicine/Health. Based on in-depth research with gynecologists, midwives and patients, Aspirix designed Carevix, an innovative medical device to replace the standard tam Tam.

Nanolive

Nanolive founder wins EY Entrepreneur of the Year Award, category Emerging Entrepreneurs. Nanolive offers a globally unique technology to observe living cells in 3D without destructive dyes, which is revolutionary for research.

Sevensense and Limula

Sevensense and Limula win Swiss Technology Award 2022. Limula has set itself the task of helping personalized cancer therapy achieve a breakthrough, while SevenSense Robotics wants to make delivery robots autonomous.

Alveolix

Alveolix received the Swiss Medtech Award worth CHF 75,000. Alveolix has recreated the human lung, including breathing movements, on a small scale. This enables a reduction in animal testing and represents an important step towards personalized medicine.

Sightin Health

MAKING PORTABLE ULTRASOUND MACHINES MORE ACCESSIBLE

Solaxer

SUPPLYING RECEIVERS FOR SOLAR HEAT-POWERED INDUSTRIES

Meet some of the successful founders who won Venture Kick, and get to know their innovation, team and work environment better. Scan the QR-code to watch their interviews, or check the Kickers' World playlist with all episodes.

SOLAYER - Kranner Anna, Swiss Federal Institute of Technology Lausanne [EPFL], Supplier of receivers for solar heat powered processes.	ERUPT - Baumgartner Melanie, University of Fribourg [UNIFR], Pocket (psycho) therapy for erectile dysfunction.
VOLTIRIS - Roch Jonas, Swiss Federal Institute of Technology Lausanne [EPFL], Improving energetic efficiency of greenhouses.	MARK INVESTMENT HOLDING AG ISPLINT INVESTI - Perucca Aurelio, University of Basel [UNIBAS], Alternative investments accessible for everybody.
WATERTANHWEIRE - Labros Alexandre, HES-SO Valais-Wallis, Renewable energy for electric vehicles fast-charging.	OPTIMARATO - Kull Tobias, Swiss Federal Institute of Technology Zurich [ETH], Helping patients in using their data to optimize their care.
WETTA LEAD THE THERAPEUTICS - Shoshan Michal, University of Zurich [UZH], Next-generation medications for cancer against meat poisoning.	RAPIDATA - Corkill Jason, Swiss Federal Institute of Technology Zurich [ETH], E-Learning in diagnostic imaging.
HEUROPAT - Ni Ruqing, University of Zurich [UZH], Novel eye diagnostic imaging biomarker for Parkinson's disease.	SCHOOL REBOUND - Asselborn Thibault, Swiss Federal Institute of Technology Lausanne [EPFL], Mobile app for children with handwriting difficulties.
EXMR - Torres Félix, Swiss Federal Institute of Technology Zurich [ETH], NMR-based high throughput screening platform to support drug discovery.	SHIMON & JOSEF - Gaudiot Raphael, HES-SO Fribourg, Enhancing the guest experience at hotels through customization.
SHRIER THERAPEUTICS - Steiner Bettina, Swiss Federal Institute of Technology Zurich [ETH], Bispecific antibody as catalyst for stem cell transplant.	A-METAL - Steiner Stephan, Swiss Federal Institute of Technology Zurich [ETH], Making metal 3D printing more accessible.
EXTREMMUNE - Jayachandran Rajesh, University of Basel [UNIBAS], Novel therapy for Autoimmunity and Organ Transplantation.	ASCENTIO - Morra Alessandro, Swiss Federal Institute of Technology Zurich [ETH], Autonomous outdoor security patrolling.
ECOCOLLONY - Montalban Arques Ana, University of Zurich [UZH], Bacteria-based oral therapy to treat colorectal cancer.	AVING - Sigurðarðóttir Halla, Centre Suisse d'Electronique et de Microtechnique (CSEM), Increasing performance and training in Figure Skating thanks to a wearable technology.
LEANTECH	MATERIALS, CHEMICALS
SWISSINPECT - Rezaie Amir, Swiss Federal Institute of Technology Lausanne [EPFL], A platform for traceable digital twins of infrastructures.	CAPTIN GREENFIN - Delgoffe Antoine, Swiss Federal Institute of Technology Lausanne [EPFL], Enabling the computing of technology lausanne (EPFL). Enabling the computation of tomorrow with in chip cooling.
TRUELY - von Contzen Moritz, University of St. Gallen [HSG], A digital bank account to live a more sustainable life.	CROPIED - Oberholzer Remo, Zurich University of Applied Sciences [ZHAW], Intelligent and adaptive plant system for plant cultivation.
VAMOZ - Wildhaber Isabell, University of St. Gallen [HSG], Enabling remote work abroad.	RAUMPIONEIRE - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.
YB00 - Huber Benjamin, EMPA, Efficient building operation through a predictive control Swiss Federal Institute of Technology Zurich [ETH], Rebuilding degraded coral reefs with 3D-printed reef systems.	SEISMOPHANT - Schindler Ramona, University of Zurich [UZH], A solution that helps you to learn mathematics.
YIATH - Blended Psychotherapy (DTx), von Gunten Florence Oliva, University of Bern (UNIBE), First Swiss blended psychotherapy app for clinical practice.	SEISMOPHANT - Martakis Panagiotis, Swiss Federal Institute of Technology Zurich [ETH], Deploying AI to protect the life of buildings and bridges.
SMARTVINS - Viškaitis Paulius, Swiss Federal Institute of Technology Zurich [ETH], Intelligent brain stimulation for rehabilitation.	SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.
GALVENTIA - Fritsche Sascha, University Hospital of Zurich, Reset your chronobiological clock to eliminate sleep inertia.	SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.
GROWTECH - Sedgiva Zuzana, Swiss Federal Institute of Technology Zurich [ETH], From waste to foam, growing a more sustainable future.	SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.
IMPOSSIBLE MATERIALS - Schreck Murielle, Swiss Federal Institute of Technology Zurich [ETH], Providing plant-based formulation ingredients for coloring applications.	SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.
CELLA - Schreck Murielle, Swiss Federal Institute of Technology Zurich [ETH], Next-level powder analysis by aerosol technology.	SEISMOPHANT - Martakis Panagiotis, Swiss Federal Institute of Technology Zurich [ETH], Deploying AI to protect the life of buildings and bridges.
CHIRAL - Lanz Natanael, Swiss Federal Institute of Technology Zurich [ETH], Industrial production of high-quality quantum processors.	
TOSA SWISSTECH - Quoloz Sawsane, Fachhochschule Nordwestschweiz (FHWN), Composite bipolar plates for fuel cells and electrolytes.	
METEORE WATCHES - Loizeau Frédéric, Centre Suisse d'Électronique et de Microtechnique (CSEM), Crafting the mechanical watches of tomorrow.	
YUMATE FOODS - Zamprogna Eliana, Zurich University of Applied Sciences (ZHAW), Sustainable plant-based food from fungi and fermentation.	
SOFTWARE	AI RETAIL SYSTEMS - Penirasanji Maran, University of St. Gallen [HSG], Powering retailers to round-the-corner, 24/7, Grab & Go shops.
MEDTECH	ALTER EGO - Mhamdi Faycal, Swiss Federal Institute of Technology Zurich [ETH], Creating avatars to help shoppers shopping the correct size.
ATLASVR - Holzwehr Valentin, Swiss Federal Institute of Technology Zurich [ETH], Revolutionizing vocational training with Virtual Reality.	AMPLIFI - Santschi Dominik, Fachhochschule Nordwestschweiz (FHWN), Helping brands and retailers amplify a world without waste.
A IN EPILEPSY AND SLEEP - Skorucak Jelena, University of Zurich [UZH], Intelligent system for epilepsy and sleep diagnostics.	BATTERYLOG - Brönnemann Stefan, Berner Fachhochschule (BFH), SMASS solutions to analyze battery related data.
AKINA - Haufe Florian, Swiss Federal Institute of Technology Zurich [ETH], Combination of physical therapy with the world of gaming.	BRIAN - Forsbach Ralph, University of Applied Sciences (ZHAW), Primary care breath test for rare lung diseases.
ATLASS - Areger Melanie, Zurich University of Applied Sciences (ZHAW), Primary care breath test for rare lung diseases.	BREATHE - Lump Thomas, Swiss Federal Institute of Technology Zurich [ETH], A low-cost ventilator for all.
COMPACOS - Schädli Gian Nutal, Swiss Federal Institute of Technology Zurich [ETH], Personalized diagnostics for bone health.	COPACOS - Schädli Gian Nutal, Swiss Federal Institute of Technology Zurich [ETH], Personalized diagnostics for bone health.
BREATH-E - Yim Kevin Ho Wai, University of Zurich (UZH), Hacking the cellular messenger system.	EWINE - Weichers Benedikt, University of Zurich (UZH), Climate risk analytics for global supply chains.
CURRENTICS - Halter Gaudenz, University of Zurich (UZH), Climate risk analytics for global supply chains.	GENERALI - Schreyer Jan, Swiss Federal Institute of Technology Zurich [ETH], Generating Art with AI.
GENE	LONDONY - Lieberherr Pascal, Swiss Federal Institute of Technology Zurich [ETH], Making tractors intelligent.
OKOMIND - Frachy Yann, University of Geneva (UNIGE), A new way to share and play video games.	OPTIMIL - Schreiber Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
PATON - Zehnluhr Frei, Zurich University of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalizing real estate investment for sustainability.
ONESCOP - Genoux Alain, Hôpitaux universitaires de Genève (HUG), Digital stethoscope powered by AI for automated diagnosis.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
PELEPHANT - Schindler Ramona, University of Zurich [UZH], A solution that helps you to learn mathematics.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Martakis Panagiotis, Swiss Federal Institute of Technology Zurich [ETH], Deploying AI to protect the life of buildings and bridges.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Strafori Erik, Swiss Federal Institute of Technology Zurich [ETH], Online platform for faster drug development.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - van Remco, Kress Oliver, University of Bern [UNIBE], Wearable textile-based tissue health monitoring sensor.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Thevenot Jérôme, Swiss Federal Institute of Technology Lausanne [EPFL], Smart wearable device to assess knee health at any Point of Care.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.
SEISMOPHANT - Färber Atilla, Österreichische Fachhochschule, Finding undervalued properties fast, easy and for everyone.	ONCOBIT - Scheucher Claudia, University Hospital of Applied Sciences (ZHAW), Digitalized nurse call for direct communication.

PROJECT SELECTION

2022

FINANCES

OUTLOOK

For 2023, we plan the following:

→ **740 APPLICATIONS**

→ **300 PROJECTS PRESENTED**
presented at 15! jury sessions
(9 stage 1 / 19 stage 2 / 13 stage 3)

→ **178 PROJECTS FUNDED**
funded (90 at CHF 10.000 / 56 at CHF 40.000 /
37 at CHF 100.000)

→ **CHF 6,330,000**
in seed-funding for startup projects

→ **49 KICKERS CAMPS**
2-day workshops in small groups

→ **12 KICKERS' BRIEFINGS**
Workshops at Swiss universities

20-YEAR GOALS

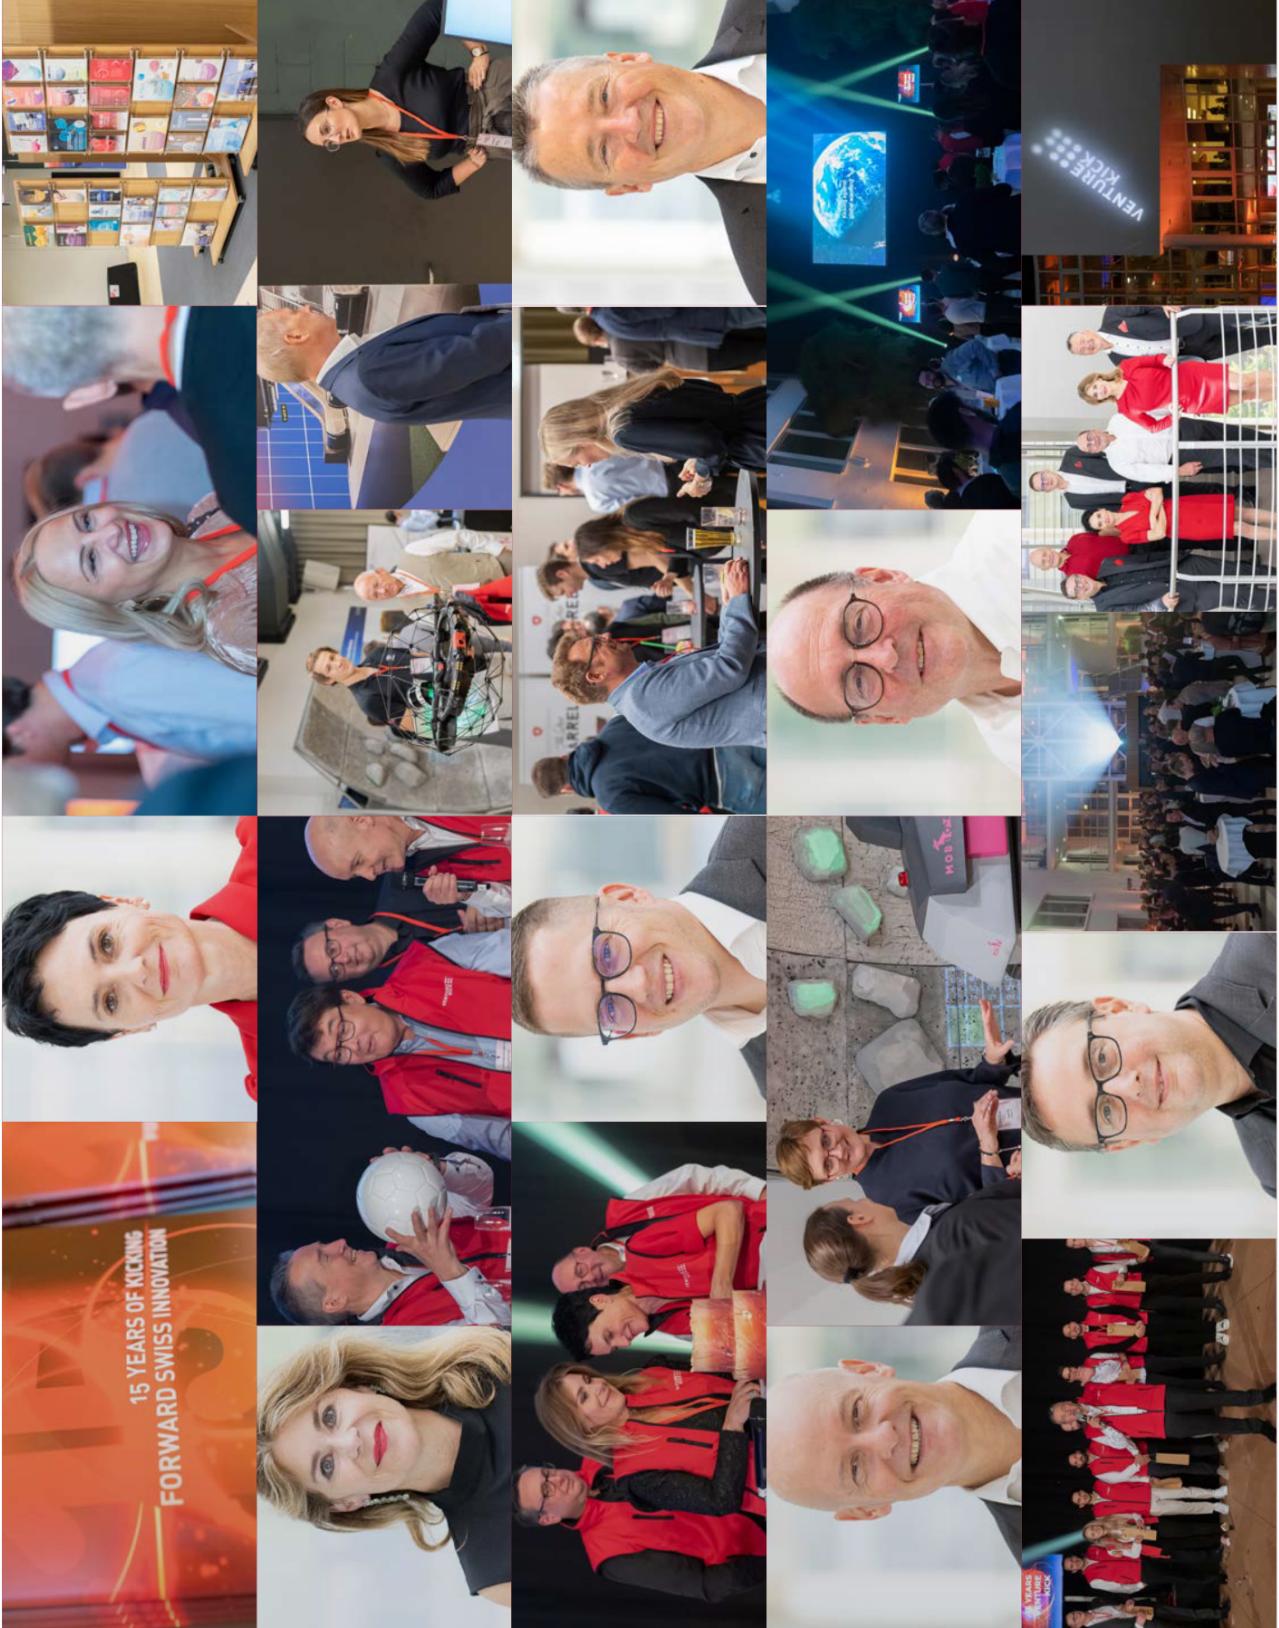

In 2027, we want to celebrate 20 years together, with 1,000 Venture Kick startups – among them several unicorns and global leaders in their markets – counting 20,000 employees.

→ **1,000**
active high-tech companies

→ **20,000**
high-quality and sustainable jobs created

→ **CHF 12,000,000,000**
of investment raised by Venture Kick alums

→ **CHF 3,000,000,000**
annual revenue produced by these companies

6,300,000

**TO GIVE 178 KICKS TO STARTUPS IN 2023 AND BRING SWISS
DEEPTech TO GLOBAL MARKETS**

Since its launch in 2007, Venture Kick has provided 917 Swiss university spin-offs with CHF 44.85 million in seed capital. To date, 718 of them have been incorporated, creating 11,362 jobs. These startups have attracted CHF 6.7 billion in extra investment.

The private initiative Venture Kick is financed by:
